

# Join Us in Enhancing Our Life Skills Services

Your gift will support the growing demand for integrated Vocational, Wellness, and Day and Community Services.

## Member Transportation Need

## Center for Well-being

## Equip & Furnish Our Program Spaces

Goal \$40k

Goal \$50k

Goal \$60k

**Acquire an additional vehicle** to transport our members to program locations and out in the community for trips and other activities. The cost of vehicles continues to rise, but we cannot let that impact our ability to provide high-quality community integration.

We currently need one (1) “minivan” type vehicle, which, if the vehicle is used and in good condition, can total approximately 40k.

**Create a center for well-being** focusing on training, wellness, nutrition, exercise, and other aspects of well-being.

**Enrich our individualized Adaptive Life Skills program** through functional academics and educational technology. This includes the addition of a library and a book club nook.

**Purchase** equipment for the gym and recreational therapy suite.

**Outfit our Music Therapy Suite** with a wide range of instruments and a sound system.

**Set-up a Personal Care Studio** to focus on grooming skills such as personal hygiene, dental care, hair care, skin care, and nail care.

**Install a sensory room** that provides a relaxing sensory experience allowing the person to practice self-regulation and enhance their therapeutic experience. **Featuring** calming LED bubble tubes, soft padded platforms, a mirror ball to show images creating a soothing environment, fiber optic carpets to lie down and listen to music or watch images, and seating for comfort and tactile experience.

**Enhance our Wellness & Activities Suites**, improving over 10k sq.ft. of space by updating the color palette throughout, making it conducive to learning and working on life skills.

**Replace carpeting** with flooring will enable safe, functional and socially adequate use of the suite as our members will be physically active in much of this space.

**Purchase materials**, furnishings, and technology to support the growing demand for state-of-the-art services and learning opportunities our members deserve.

**A Chance to Make a Difference in the Lives of Many!**
